Programme:
Friday 28 Feb 2020
08:30-09:00  Registration
09:00-09:10  Welcome and Introduction

Session 1:  **Basic cardiac structure in adult congenital heart disease (ACHD)**
9.10-9.30  ACHD Echocardiography Protocol
9.30-9.50  How to perform echocardiography for ACHD patient

Session 2:  **Atrial septal defects (ASD)**
9.50-10.20  ASD types, echocardiographic assessment:
Secundum, Primum, Sinus venosus, Unroofed coronary sinus

10.20-11.00  *Work on the echo units/machines (40)*
11.00-11.20  Coffee break

Session 3:  **Ventricular septal defects (VSD)**
11.20-11.50  VSD types, echocardiographic assessment
Late complications of small VSD

Session 4:  **Atrioventricular septal defects (AVSD)**
11.50-12.20  Echocardiographic assessment of AVSD
Echocardiographic assessment of repaired AVSD
Tips and tricks in assessing shunt lesions

12.20-13.00  *Work on the echo units/machines (40)*
13.00-14.00  Lunch break

Session 5:  **Disease of the left ventricular inflow and outflow tract**
14.00-14.30  Echocardiographic assessment of LV inflow abnormality
Echocardiographic assessment of LV outflow abnormality
Echocardiographic assessment of CoA

Session 6:  **Tetralogy of Fallot after repair**
14.30-15.00  Late complications after ToF repair
Echocardiographic assessment of RV function and pulmonary valve

15.00-15.20  Coffee break

Session 7:  **Ebstein anomaly**
15.20-15.50  Echocardiographic assessment and treatment options

Session 8:  **Physiologically univentricular heart**
15.50-16.10  Physiologically univentricular heart
16.10-16.40  Fontan circulation

Session 9:  **Pulmonary hypertension and Eisenmenger sy**
16.40-17.00  Echocardiographic assessment
Saturday 29 Feb 2020

Session 10:  Review of Sessions 1-9
9.15-10.00  How to recognize a patient with congenital heart disease?

Session 11:  Endocarditis in ACHD
10.00-10.20  Echocardiography for endocarditis assessment

10.20-10.50  Work on the machines (30)

10.50-11.10  Coffee break (20)

Session 12:  Transposition of the great arteries (TGA)
11.10-11.40  TGA after arterial switch repair and Rastelli operation
11.40-12.00  Congenitally corrected TGA
12.00-12.30  TGA after atrial switch-Mustard/Senning operation

12.30-13.30  Lunch break

13.30-15.30  Hands on

15.30  Closure of the meeting
